“ I didn't know Alicia well but from the little time we spent together anyone could tell she loved to chat and have a good time. She was kind to my children and for that I will always be grateful. It was obvious how much she loved her family and I know she will be sorely missed. Our condolences to the Brousell and Sherry families on their loss, Rhonda and Bruce Freund

“ Alicia, "My Precious Friend"
Words can not express what your friendship meant to me. We didn't see each other often, but your daily calls made my day. When the phone rang in the morning, Johnny would smile and say it's Alicia..!!! We both enjoyed talking to you so much. You were always so concerned for both of us.

I will always remember and love you "My Movie Star Friend "

Love, Agnes and John Errico

“ I have known the Brousell Family for decades (Jeffrey & Diane), which means I've known Alice just as long. She was always the sweetest woman to me, my daughter & my parents. I loved seeing her cheery face, and getting her fabulous hugs along with her Mundo bread/cookies. Yes, yes - I had to go there :)
Alice, you will be sorely missed, but My memories with you will always be remembered and kept in my heart.

Love Always,
Lily

“ My grandmother was an immense support system to me. When my immediate family fell apart, she was the only one I could turn too. She always made me feel like I was #1 regardless of what I went through or people thought of me.

All she ever wanted was her entire family to be together, which she knew meant more to me than anything too. Never did I ever feel that I wasn't special to my grandmother. Her constant support was immeasurable. Words do not describe how she made me felt and I fear I'll never feel that way again.

However, I will honor you by striving to look past what's been said and done, and look towards what's in everyone's heart. I will put aside my extreme sensitivities and try to see things from another perspective. This is my vow to you.

As time goes on, people and relationships will inevitably change. I promised you I would take care of my father and I know you waited until after Father's Day to see if I would follow through.

What I've learned from you is that people aren't perfect. We all have flaws and may not see eye to eye, but family is family. I will forever keep my promise to you and will always have kind thoughts towards those I don't see regularly.

As a 36 year old woman, no longer a child, I hope that I made you proud because I will always be proud to have called you grandma.

“ Nan,

You were by far the most amazing human being I've ever had the pleasure to know and love for 24 years. You're not only my grandmother, but you're my best friend. Through everything together and coming out better and stronger every time.

You were always by my side no matter what. You were always gossiping with me on the phone, letting me lay on your 'pillows', wearing adorable headbands, making mundel bread, matzah ball soup and meatloaf for me, letting me sleepover whenever I wanted, and even watching soaps with you the time I couldn't walk. I'll cherish these memories and the thousands of other memories I have with you.

You always loved unconditionally and are the glue that will always continue to hold this beautiful family together. It's going to be hard without you around all the time, but I'll talk to you every day and will always love you and be with you. You're my inspiration every day to continue doing what I love -- I am where I am today because of you and I'll forever be grateful for that.

I love you so much, my beautiful angel.

Love your youngest grandchild,
Ashley

“ Mommy, I will love you forever. You are the most beautiful Mother and Friend a daughter could have. I will think about you everyday. You taught me many things in life, you just never taught me how to live without you and that will be the hardest lesson to learn. Rest in peace and know I will always be with you. Thank you for always loving me. Your, Andrea
