“ Sorry about your loss.

Charlie was one of my first bosses at the APP. I remember him as being a nice guy and a fair boss. One thing I remember about Charlie which some of the older guys still talk about to this day is that nobody ran a faster press then Charlie. When you worked with Charlie you had to hustle to keep up with him, but when the press run was over he made sure you took a break. Again, deepest condolences.##imported-begin##Samuel D'Agostino##imported-end##
