“ Dearest Friends, Your sister, Susie was born with a debilitating disease that caused her a great deal of pain and frustration throughout her life. She did the best she could with the cards dealt her in life. I pray that she is at peace and has once again been reunited with the love of her life. You may or may not remember me (Elizabeth Goop aka Liz), but I remember all of you (as children) playing, running and being delightful children. I applaud those of you that have taken part in her care throughout her life. I commend those of you that stood strong and supportive while fighting the COVID illness themselves and other ailments over the past 3 years. God Bless you all and may you find peace and love - Liz and Richard laconetti
